Subject: **Appreciation for the Cooperation to Establish Supply Chain in the Czech Republic**

Dear Mr. Viktor Blesa,

First of all, we appreciate your company's cooperation in the course of supply chain establishment in the Czech Republic. We recognized that the filling up survey sheet and receiving the audit for technical and quality areas took a lot of time and efforts.

Korea Hydro & Nuclear Power Co. Ltd (KHNP) has made great effort to advance into the European market including the Czech Republic.

As you are well aware, the Czech government is very active to proceed the new nuclear power plant construction and localization is also very important part in the new project.

We understand that Czech Republic suppliers are not familiar with Korean Technology but have very strong capability in the nuclear field.

I consider that this opportunity to establish supply chain allows KHNP and your company to broaden mutual understanding. KHNP will exert all our possible efforts to maximize the localization, which means to make the best use of Czech companies as much as possible including your company.

We firmly believe that your company's cooperation for the supply chain establishment will lay the foundation for the long-term cooperation with KHNP in the nuclear business.

Respectfully Yours,

Seung-Yeol Lim
Vice President
Global Strategy Office
KHNP
